

ADRIAN GABRIEL RAMOS

09569534368 | adriangabrielnramos@gmail.com | Biñan City, Philippines

Full Stack Developer with 2 years of experience specializing in React and Python (FastAPI). Independent contractor with a collaborative, Agile mindset, experienced in working within cross-functional teams. Skilled in building responsive, high-performance web applications using React and TypeScript, with strong expertise in UI/UX implementation, RESTful APIs, and performance optimization. Passionate about creating user-focused interfaces that combine solid design principles with clean, scalable code, and highly interested in Artificial Intelligence and its practical applications.

EXPERIENCE

Full Stack Developer | *Independent Contractor*

January 2024 – Present

- Work as an independent full-stack developer, collaborating with project managers, senior developers, designers, and marketing teams while maintaining full ownership and autonomy over technical decisions and delivery.
- Contribute in an Agile environment, participating in sprint planning, stand-ups, and reviews, and ensuring assigned tickets are completed, tested, and deployed by the end of each sprint.
- Build and maintain full-stack web applications using React and FastAPI, focusing on performance, scalability, and user experience.
- Design and integrate RESTful APIs, authentication (JWT), and backend services with Supabase and PostgreSQL.
- Develop cross-platform applications with React Native (Expo) and React Native Web.
- Deploy and manage applications using Vercel, Render, and Cloudflare, with Docker for consistent environments.
- Implement state management, data fetching, and form handling using Zustand, TanStack React Query, React Hook Form, and Zod.
- Integrate Google Tag Manager (GTM) and Google Analytics to track performance and user behavior.
- Improve code quality and workflows using GitHub, Jira, and automation tools (ESLint, Prettier, Husky).
- Deliver AI-powered features using TensorFlow and OpenCV, including image-based analysis functionality.

Virtual Assistant | *Independent Contractor*

January 2021 - December 2023

- Conducted lead generation through online research, identifying potential clients and business opportunities aligned with target audiences.
- Collected, organized, and maintained accurate lead data, including contact details, company profiles, and business needs.
- Prepared detailed reports on lead generation performance, including metrics, trends, and actionable insights.
- Provided data-driven recommendations to improve outreach strategies and optimize conversion rates.
- Utilized digital tools and platforms to streamline data collection and reporting processes.

TECHNICAL SKILLS

- Programming: TypeScript, JavaScript, Python, SQL
 - Frontend: React, React Native, Expo, React Native Web, Storybook
 - State Management & Forms: Zustand, TanStack React Query, React Hook Form, Zod
 - Backend: FastAPI, Pydantic, REST APIs, JWT Authentication, File Upload APIs
 - Databases: PostgreSQL, Supabase, Tortoise ORM, SQLAlchemy, Aerich, Alembic
 - AI/ML & Imaging: TensorFlow, TensorFlow.js, OpenCV, Image Processing
 - DevOps & Deployment: Cloudflare, Render, environment-based deployments
 - Testing & Code Quality: Pytest, ESLint, Prettier, Ruff, Husky, lint-staged
 - Tools & Collaboration: GitHub, Jira
-

EDUCATION

DTI × Google Career Certification Scholarship

December 2024 – Present

- Awarded sponsored access to professional certification programs on Coursera.
- Completed and/or currently pursuing certifications in: User Experience Design, Digital Marketing & E-commerce, Business Intelligence, Project Management, Cybersecurity, Data Analytics, Advanced Data Analytics, and IT Support/IT Automation.
- Actively developing in-demand technical and digital skills through hands-on, project-based coursework.

Certificates & Courses

- *Google AI Essentials* — Google / Coursera, November 2024
- *Google Data Analytics Professional Certificate* — Google / Coursera, November 2024
- *Google UX Design Professional Certificate* — Google / Coursera, August 2024
- *The Complete 2023 Web Development Bootcamp* — Udemy, August 2023
