ADRIAN GABRIEL RAMOS

+63956 953 4368 | adriangabrielnramos@gmail.com | github.com/gabrielAdrianRamos

Frontend Developer specializing in React and modern JavaScript frameworks. Experienced in building responsive, high-performance web applications using React, TypeScript, HTML, and CSS. Skilled in UI/UX implementation, REST API integration, and performance optimization. Passionate about creating user-focused interfaces that combine strong design principles with scalable code.

WORK EXPERIENCE

Frontend Developer - Independent Contractor **January 2024 - April 2026**

- Work as an independent frontend developer, collaborating with project managers, senior developers, designers, and marketing teams while maintaining full ownership and autonomy over technical decisions and delivery.
- Contribute in an Agile environment, participating in sprint planning, stand-ups, and reviews, and ensuring assigned tickets are completed, tested, and deployed by the end of each sprint.
- Develop cross-platform applications with React Native (Expo) and React Native Web.
- Deploy and manage applications using Vercel, Render, and Cloudflare, with Docker for consistent environments.
- Integrate Google Tag Manager (GTM) and Google Analytics to track performance and user behavior.
- Improve code quality and workflows using GitHub, Jira, and automation tools (ESLint, Prettier, Husky).
- Deliver AI-powered features using TensorFlow and OpenCV, including image-based analysis functionality.

Virtual Assistant – Lead Generation **July 2021 - December 2023**

- Researched potential clients and generated qualified leads using online platforms and databases.
- Collected, organized, and maintained accurate lead data including contact details and company information.
- Prepared reports analyzing lead generation performance and potential opportunities.
- Supported marketing initiatives by identifying target audiences and business prospects.

TECHNICAL SKILLS

- Programming: TypeScript, JavaScript, SQL
- Frontend: React, React Native, Expo, React Native Web, Storybook
- DevOps & Deployment: Cloudflare, Render, environment-based deployments
- Tools & Collaboration: GitHub, Jira
- AI/ML & Imaging: TensorFlow, TensorFlow.js, OpenCV, Image Processing

EDUCATION

DTI × Google Career Certification Scholarship **May 2024 - March 2026**

- Awarded sponsored access to professional certification programs on Coursera.
- Completed and/or currently pursuing certifications in: User Experience Design, Digital Marketing & Ecommerce, Business Intelligence, Project Management, Cybersecurity, Data Analytics, Advanced Data Analytics, and IT Support/IT Automation.
- Actively developing in-demand technical and digital skills through hands-on, project-based coursework.
